Homework 1

Instructions

Restaurant Website Project

Objective:

Create a simple **restaurant website** with a **menu, gallery, and contact page**.

Project Requirements

1. Header & Navigation

- Add a **logo** and a navigation bar with links to: **Home, Menu, About, and Contact** pages.

2. Hero Section

- Include a **large banner image** with the restaurant's name displayed clearly.

3. Menu Page

- Create a **structured menu** using **tables or cards** to display food items and prices.

4. Image Gallery

- Show at least **six pictures** of food or the restaurant interior. The images in the gallery should be displayed as a slider.

5. About Section

- Write a **short story** about the restaurant (e.g., history, special dishes, or mission).

6. Contact Page

- Include:
    - A **Google Map** showing the restaurant's location.
    - A **contact form** with Name, Email, and Message fields.

7. Footer Section (10 points)

- Add **social media links** (Facebook, Instagram, etc.) and **business hours.**

PART 2 Mobile-Friendly Design

- Make sure the website **works well on phones and tablets** (use **CSS media queries**).
- Hint: Make use of hamburger menus and stacking.

Please use the attached image only as a reference, you are free to be as creative as possible.

Submission

- Find any free hosting sites to host your application and submit the links to the hosted web pages.
